kidneyhealthppie@leicester.ac.uk

Research updates

At this event, you'll hear about the latest research taking place by the Leicester Partnership for Kidney Health and colleagues. We will share updates on current and previous studies, as well as explore new research ideas with you.

Importance of research

Kidney disease affects millions of people without early warning signs.

Research is vital to improve the management, outcomes and quality of life of those living with kidney disease.

How can you help?

Your experiences, ideas and questions are essential. By joining us, you'll have the chance to:

- **Share your perspective** and help shape future kidney research;
- Take part in discussions and **learn about kidney research**;
- **Connect with researchers**, patients, and healthcare professionals.
